INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Long Beach Rescue Mission
Long Beach Rescue Mission Foundation

We have audited the accompanying combined financial statements of Long Beach Rescue Mission and Long Beach Rescue Mission Foundation (nonprofit organizations), which comprise the combined statement of financial position as of June 30, 2016, and the related combined statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

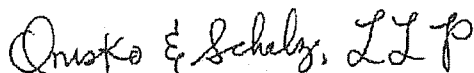

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Long Beach Rescue Mission and Long Beach Rescue Mission Foundation as of June 30, 2016, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO COMBINED FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Nature of Activities

Long Beach Rescue Mission (“LBRM”, “Mission”) was established in 1972 and provides food, clothing, shelter, and spiritual guidance to the homeless people of the community. Temporary housing is provided through facilities owned by the Mission, assisting people primarily in the Long Beach area. Residents are provided with counseling services to help them obtain permanent housing, employment, financial assistance and to help with substance abuse. The Mission is primarily supported through public donations. The Mission also operates a Thrift Shop in facilities it owned.

The Long Beach Rescue Mission Foundation (“LBRMF”, “Foundation”) was created in 2000 to facilitate the Mission’s investments and provide financial assistance to the Mission. The Foundation is directly funded and is a separate entity.

Principals of Combination

The combined financial statements include the accounts of the Long Beach Rescue Mission and the Long Beach Rescue Mission Foundation. Collectively the entities are referred to as “the Organization” or “the Organizations” throughout these notes. The Mission board of directors has a controlling interest in the Foundation board. Combined financial statements are presented because the entities are under common management and have similar operations. Management believes combined financial statements are more meaningful.

Basis of Accounting

The combined financial statements of the Organization have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and follow the recommendations of the Accounting Standards Codification (“ASC”) 958-205, Financial Statements of Not for Profit Organizations.

Financial Statement Presentation

The net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions as follows:

Unrestricted – Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board of Directors.

Temporarily Restricted – Net assets subject to donor-imposed stipulations that can be fulfilled by actions of the Organization, pursuant to those stipulations, or that expire by the passage of time.

Permanently Restricted – Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization. Generally, the donors of such assets permit the Organization to use all or part of the income earned on the assets.

During the year ended June 30, 2016 the Organization did not receive any permanently restricted contributions.

**LONG BEACH RESCUE MISSION AND
LONG BEACH RESCUE MISSION FOUNDATION
NOTES TO COMBINED FINANCIAL STATEMENTS
JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting for Contributions

GAAP require that the Organization reports information about its financial position and activities in three classes of net assets: unrestricted, temporarily restricted, and permanently restricted. Contributions are recognized when the donor makes a promise to give to the Organization that is unconditional. Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a donor restriction expires, that is, when a stipulated time restriction ends, or the purpose of the restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Cash and Cash Equivalents

For purposes of the statement of financial position and the statement of cash flows, cash and cash equivalents consist of cash and other highly liquid resources, such as investments in certificates of deposit, repurchase agreements, and money market funds, with an original maturity of three months or less when purchased. The Organization receives funds for its Winter Shelter program from the Los Angeles Homeless Service Authority, which are required to be kept in a separate bank account.

The Organization maintains bank account for its program participants. These funds are not considered cash and cash equivalents and are reported with other asset on the statement of financial position.

Accounts Receivable

The accounts receivable consist primarily of rent due from leased properties and are stated at the amounts that management expects to collect from outstanding balances. Management believes the accounts receivable as of June 30, 2016, are fully collectible and therefore, the Organization has not recorded an allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible.

Contributions and Bequests Receivable and Promises to Give

The Organization has been named beneficiary of various estates. Bequests and contributions received under such estates are not recorded until the Organization has a legal right to such assets, the distribution of assets to the Organization is probable, and the amount of the distribution can be reasonably estimated.

Unconditional promises to give are recorded at net present value. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

Inventories

Inventories consist of gift cards and soda machine inventory recorded at cost. No value is placed on Thrift Store inventory at the time of receipt, because the value is undeterminable.

**LONG BEACH RESCUE MISSION AND
LONG BEACH RESCUE MISSION FOUNDATION
NOTES TO COMBINED FINANCIAL STATEMENTS
JUNE 30, 2016**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property and Equipment

Property and equipment are stated at cost, if purchased or at fair value at the date of the gift, if donated and significant. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support.

Depreciation has been recorded using the straight-line method over the estimated useful life of the specific asset ranging from two to fifteen years for furniture and equipment, and forty years for buildings. The cost of property and equipment purchased in excess of \$500 is capitalized. Repairs, maintenance and minor acquisitions are expensed as incurred, and the Organization uses the direct expensing method to account for planned major maintenance activities.

Long Lived Assets

The Organization reviews long lived assets such as property and equipment to determine if there has been an impairment of value whenever events or changes occur that indicate the carrying value of the assets have declined and may not be recoverable. No circumstances have occurred during the year causing the Organization to believe there has been any impairment of the carrying value of its long lived assets. There can be no assurance, however, that market or other conditions will not change in the future resulting in impairment of long lived assets.

Loan Fees

Loan cost of \$6,090, associated with note payable, is being amortized over the term of the loan using a straight-line method. Amortization expense for the year ended June 30, 2016 was \$243.

Contributed Materials and Services

The Organization receives food donations from various businesses and individuals. Food donations have been recorded as in-kind income and expense based on the fair market value. During the year ended June 30, 2016, the Organization received food inventory with a fair value on the date of donation of \$555,829. No value has been recorded for the remaining food inventory, as the inventory would have no resale value.

The Organization receives periodic donations of materials and supplies from local vendors and from the community, which are recorded at estimated fair market value at the date of donation, if significant. Donated equipment or improvements are recorded at the estimated fair value at the date of donation. Donated stock is recorded at the underlying stock's fair market value at the date of the donation. During the year ended June 30, 2016, the Organization received donation of various household goods valued at \$151,913.

A substantial number of volunteers have donated significant amounts of their time to the Organization and its programs. The donated services are not reflected in the financial statements since these services do not meet the criteria for recognition as contributed services.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Organizations are exempt from income tax under Section 501(c)(3) of the Internal Revenue Code ("IRC") and Section 23701(d) of the California Tax Code. The Organization qualifies for the charitable contribution deductions under Section 170(c)(2) of the IRC and is classified as an Organization that is not a private foundation under Section 509(a)(1). Income from certain activities not directly related to the Organization's tax exempt purpose may be subject to taxation as unrelated business income.

GAAP provides accounting and disclosure guidance about positions taken by an organization in its tax returns that might be uncertain. Management has considered its tax positions and believes that all of the positions taken by the Organization in its federal and state exempt organization tax returns are more likely than not to be sustained upon examination.

Generally, the Organization's returns are subject to examination by the federal and state taxing authorities for three and four years, respectively, after the returns are filed. There are no returns under examination as of June 30, 2016.

Fair Value of Financial Instruments

Financial assets and liabilities are recorded at their fair market value in accordance with ASC 820, *Fair Value Measurements*. This standard defines fair value and establishes a hierarchy for reporting the reliability of input measurements used to assess fair value for all assets and liabilities. ASC 820 defines fair value as the selling price that would be received for an asset, or paid to transfer a liability, in the principal or most advantageous market on the measurement date. The hierarchy prioritizes fair value measurements based on the types of inputs used in the valuation technique. The inputs are categorized in the following levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly through corroboration with observable market data (market-corroborated inputs).
- Level 3 inputs are unobservable inputs for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability (including assumptions about risks) developed based on the best information available in each circumstance.

The Organization's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are carried at cost, which approximates fair value because of the short-term nature of these instruments. The reported amount of the note payable approximated fair value because of the market value interest rates the instruments bear.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Advertising Costs

Advertising primarily consists of the Organization’s newsletter and seasonal donation solicitations. The Organization expenses advertising production costs the first time the advertising occurs. Advertising expense for the year ended June 30, 2016 was \$411,557.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual events and results could differ from those assumptions and estimates. The significant items in these statements that are affected by management estimates are depreciation and allocations of functional expenses.

Expense Allocation

The cost of providing various programs and other activities has been summarized on a functional basis in the combined statement of activities and the combined statement of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

NOTE 2 – CONTRIBUTIONS RECEIVABLE
